### LOCAL JOTTINGS

The New Year brought with it real seasonable winter weather, taking the place of the exceptionally mild weather we were treated to in the last two months of 1912. Since Thursday night last, when a heavy snowfall commenced, the weather has been decidedly cool, with the exception of Monday, when a chinook wind came along and boosted up the thermometer. On Tuesday, however, the temperature was lower than ever, and for the most of the week it was below zero. On Thursday morning it was 22 below zero at 9 o'clock, and with a strong north wind blowing it was decidedly chilly. Coal seems to be plentiful, however, and this weather won't do any harm.

The sale of the King Edward Hotel has been challenged by the Riverside Lumber Co., and they applied for and obtained a temporary injunction on Saturday against the sale. The case came up again on Wednesday at the Calgary Court. Parties were heard, and judgment was reserved.

Several inquiries have been made recently respecting the formation of evening classes here, and Mr Ogilvie, school principal, states that if a sufficient number of pupils come forward he will start these classes. Inquiries should be made direct to Mr Ogilvie.

Mr Sam Lones sends us a postcard from Lisbon, Ohio, where he is at present sojourning, stating that he is having a good time, and that the weather was quite warm. It is rumored that Sam is not coming back alone.

As mentioned in another column, the "Edmonton Journal" states that Premier Sifton may run for this constituency. One of the reasons given for the Premier's alleged preference for this spot is that "telephones have been strung up in this riding with greater liberality than in any other portion of the Province. If the Government has been liberal with its phones here, we wonder what it would be like if they were stingy. There are now fifteen rural subscribers on two lines from Strathmore over years of years. There are petitions, and more are promised for next summer. We are afraid "liberality" will not count for much with the electors.

REMEMBER we still have a choice selection of Winter Eating Apples. The finest that can be obtained, and not frozen. These include Spys, Jonathan, McIntosh Reds, Come Beauties Salomons, Spitzenburgs and others. Choice Creamery Butter at 35c per lb. Eggs 40c per doz.

**MARTIN & EVANS**  
Model Bakery  
Hurrah! sleighing is now here. I have the sleighs and want to sell them! My prices are right and I invite you to inspect the same.—C. W. CHASE

Mr J. H. Walls, of New Brunswick, and lately of Calgary, arrived here this week with his wife and two children, and has taken up house. Mr Walls is one of the partners of the Bow Valley Supply Co., of which Mr M. B. Garrett is manager. Mr Walls is a brother of Mrs Garrett's.

Interest in the Piano Contest is increasing every day. Candidates are working hard, and the votes are piling up fast, though there is a tendency to hold them back. See the special notice in another part of this issue.

Strathmore has been lucky within the past three years in having immunity from serious fires. It is well that this is so, for Strathmore people seem to depend largely on luck. When the alarm was given on Sunday for the Goffrier fire, and the water tank went out, there were only about 8 inches of water in the bottom of the tank, sufficient to fill the chemical engine once. There was probably some reason for this, but it does not look right. When the presence of the tank in good state at a fire is considered worth \$500 in cartage it should be seen that there is water enough in it to make it of some use when it gets to a fire.

### Town Council Meets

The Strathmore Town Council for 1913 met for the first time in the Town Hall on Monday evening. Mayor Lambert presided, and the Council members present were Messrs G. T. Berry, W. E. Brown, J. H. M. Martin, G. F. Butler and O. F. Bremer. Councillor Girvin was not able to attend, being confined to his house with grippe.

In opening, the Mayor addressed the Council wishing them a happy New Year, and welcoming the new members to the Council Board. Appointments made were as follows:—Dr. Girvin Deputy Mayor for January, February and March. Committee—Public Works, Property, Fire and Light—Berry, Bremer and Martin. Finance, Legislative and Police—Brown, Girvin and Butler.

#### THE PARK

A letter was read from the CPR, asking what the town was doing about the lease of the Park, which was in their hands for signature. The matter was left over until next meeting.

A number of accounts were read and passed to the Finance committee for payment if found correct. The secretary was authorized to pay the School Board the sum of \$150.

The balance of the evening was devoted to a discussion on the town's finances. Debentures to pay

### Rural Municipality

#### FIRST MEETING

The first meeting of the Council of the Rural Municipality of Bow Valley No. 210 was held at the Fire Hall, Monday, Jan. 6th. Present—O. Christensen, E. E. Green, J. McLean, A. Watson and J. Thomson.

After presenting their oaths of office O. Christensen was appointed Chairman and W. G. Way Secretary of the meeting. The following appointments were made:

O. Christensen, Strathmore, Reeve; J. Thomson, Namaka, Deputy Reeve; W. G. Way, Strathmore, Secretary-Treasurer; W. Kerton, Cheadle, Auditor. On motion of A. Watson and E. E. Green the office of Assessor was joined to that of Secretary-Treasurer, and W. G. Way was appointed to the combined offices.

On motion of Green and Watson the salary attached to the combined offices was fixed at \$100 per month. A number of communications were read which were laid on the table for future consideration. The Council feeling that they will be serving the best interests of the Municipality by going along until they get better acquainted with their duties and powers.

On motion of Watson and Thomson it was decided to hold regular meetings once a month on the 1st Saturday in each month at 10 o'clock in the morning.

Owing to the fire funds in the late Local Improvement District not being handed over yet a resolution was passed authorizing the Reeve and Secretary-Treasurer to borrow \$300 for three months on the credit of the Municipality.

On motion of Thomson and Watson the remuneration of members of Council was fixed as follows:—

For attendance at Council meetings, Reeve \$2.00 per day, 10 cents per mile mileage, other members \$1.00 per day and 10 cents per mile, mileage on maximum of 10 meetings per year. Supervising Engineer \$3.00 per day and 10 cents per mile mileage. Limited to 10 days.

The Secretary-Treasurer was instructed to procure the necessary supplies for the office work.

On motion of Green and Watson the following Bills and Accounts were ordered to be paid:

Western Municipal News, office and election supplies	\$ 37.00
Bow Valley Standard, printing	14.00
D. M. Robinson election expenses	3.00
O. Moenhouse	2.00
G. Gibson	8.00
Berk	8.00
J. E. Laurie	5.00
W. G. Way	5.00
W. G. Way	5.00
W. Kerton	8.00
W. G. Way	8.00
Total	\$127.00

Meeting adjourned to next regular meeting Feb. 1st.

W. G. WAY  
Secretary-Treasurer  
Strathmore Farmers' Union meets at 2.30 this afternoon

"Welcome, New Year, Rex le mor, vive le Rex," exclaims the editor of the Irvine Index in an outburst of patriotic fervor over the entrance of the New Year. The editor's French and Latin seem to have got a bit mixed

# OVERREACHED HIMSELF.

Naughton and the Cautious Trip Led Up to Waterloo.

In one way Naughton possessed a defect similar to that of Frederick the Great. He excelled in advancing his army to relieve himself of details.

It is likely that the intense desire to do what was done was the cause of his action.

Although undoubtedly the greatest military genius since Napoleon, he was overreached himself. This is shown in a single episode in the Russian campaign, but it is shown in the whole of his life.

He could not understand that his presence upon other countries despite the fact that he was the most powerful man in Europe.

He realized that the armies of the world had been organized by a man of liberty, equality and fraternity, but he could not understand that his presence upon other countries despite the fact that he was the most powerful man in Europe.

He realized that the armies of the world had been organized by a man of liberty, equality and fraternity, but he could not understand that his presence upon other countries despite the fact that he was the most powerful man in Europe.

# A NEW INVENTION

Safety Appliances to be Added to Grand Truck Equipment

Of all the multitude of problems and questions which are being solved by the railroad officials, the safety of passengers and the reliability of equipment are the most important.

A railroad system however carefully supervised and equipped, is liable to human error and accidents are bound to occur. The most common cause of accidents is the failure of the human element.

When accidents in the form of collisions, derailments, and other accidents occur, the loss of life and property is often great. The most common cause of accidents is the failure of the human element.

## "Utopias, Old and New"

The above is the title of a lecture to be delivered by Professor Brown, M. A., Ph. D., Professor of English Language and Literature at the University of Alberta, in the Old Schoolhouse, Strathmore, on Tuesday, January 14. As was noted in our last issue, this will be a lecture of much interest, and should command a large audience. Admission will be free.

This lecture is one of a series being given in Strathmore this winter under the auspices of the University of Alberta, Edmonton, and Strathmore School Board, and forms part of the University's Extension Course. The first lecture was held on December 17, and was well attended. The programme of the remaining lectures is as follows:—

January 14—Utopias Old and New. Edmund Kemper Breidner, M. A., Ph. D., Professor of English Language and Literature.

January 28—Some Aspects of Evolution. Francis J. Lewis, D. Sc., F. L. S., Professor of Biology.

February 11—Geological Evidences of Prehistoric Plant and Animal Life. John A. Allan, B. A., Ph. D., Professor of Geology.

February 25—Some aspects on Modern Astronomy. Henry Marshall Tery M. A., D. Sc., L. D., F. R. S. C., President of the University of Alberta.

March 11—Chemistry in some of its relations with daily life. Adolf Ludwig Ferdinand Lehmann, B. S. A., Ph. D., Professor of Chemistry.

## Fire on Sunday

On Sunday afternoon, about 2:45, smoke was seen issuing from a stack in the rear of Mr. Wm. Goffrey's residence north of the track. The building was about twelve feet square, and built as a granary, though at the time of the fire a large number of boxes were housed in it. It was lined with hay and straw, which made it almost impossible to extinguish, and after a large amount of water had been thrown on it, and one of the town's chemical engines at work for some time, without much effect, it was deemed wise to tow it away from the other buildings. Two teams of horses were hitched on, and with the help of a large number of spectators who had gathered, it was moved about fifty yards away, and allowed to burn itself out. It was fortunate that the building was on skids, or it would have been impossible to move it.

The smaller of the town's two chemical engines was the one used, and the water tank was brought into service. Tom Swan earned the eight dollars offered to the driver hitching on to the tank first. The weather was very cold on Sunday, and handling water was not at all a pleasant job.

The Town Council had a force of men cleaning the sidewalks in the residential part of the town for several days following the snowfall. Each resident is required to clean his or her sidewalk, or to have it done by the town and charged up, but there is a good deal of work walking fronting on vacant lots, and the method adopted seems the only way to have it done.

A son was born to Mr. and Mrs. Jac Schoemaker on Monday.

The skating rink is not ready for business yet.

Too head of dairy shorthorn cattle were shipped here on Tuesday of this week for distribution among the farmers, in the same manner as former shipments, by the Animal Husbandry Branch of the C. P. R. Department of Natural Resources. Dr. Rutherford superintended the shipment.

## Silver Wedding

On January 2nd it was just 25 years since Mr and Mrs John A. Anderson were wed. As was very natural they did not wish to let such an occasion pass by without celebrating a silver wedding. They had invited all their friends and neighbors to their home to spend the day with them. About one hour after the time set for the arrival of the guests, their house was crowded to the doors. After having spoken a few words to the celebrants, Rev. Art Vander of the Strathmore Lutheran Church, on behalf of friends and well-wishers, presented to them a silver chalice dish. Previously other silverware had been presented to them. After the presentation a sumptuous lunch was served by Mr and Mrs Anderson. An informal program, consisting of piano and vocal solos, readings, and recitations, was then rendered. This completed the first part of the day's program. At seven o'clock in the evening music was again served, followed by an informal program. Worthily of special mention here was the singing of Miss Morton, of Delroy, both in the afternoon and evening. There can be only one verdict in regard to the affair, that it was thoroughly enjoyable from beginning to end, and it goes without saying that all who had the good fortune to be present, feel that to Mr and Mrs Anderson for their kind and warm hospitality, and extend to them sincere wishes for a bright and happy future.—(continued)

## MAKE FIRE WITH ICE

It is Quite Possible. Even Simple, as This Will Show

Ice is not generally regarded as a substitute for matches in lighting a fire, yet it can be used for that purpose by a person who knows how.

Scientific management of the ice is all that is necessary. It should be very clear in the day on which the ice is made, it should be a bright, easily split. The chunk of ice in the main, it should be a rubbing into it takes the shape of a cone and the "ice" is then used to make the fire. It is easily done by anyone familiar with the method of lighting paper or starting with a match.

Furning the Ice Lens

FOR CUTTING MEAT  
Any Housewife can imitate the Butcher's Skill With This Board

While many excellent cooks have used the meat board, and its long block, they have also not attempted to imitate their own homes because they fear they would not be able to chop so truly as can the experienced butcher.

As an example, the meat board is a chopping block and slicing board that will make the work of a butcher's knife.

KNIFE ATTACHED TO BOARD  
This obviates danger to the fingers in using the knife. A staple is driven into the handle, and a larger enough to be firmly fixed and leave room for the point of the knife to pass under it. It sets in place, changing all of the work, and a great many kinds of slicing can be done as a very heavy pressure can be applied to the knife.

When Making Jelly

CHEESELOTH STRAINER ON STAND

Why not have a stand for a jelly strainer that will always be ready to use? A few pieces of lumber, and in the manner shown in the illustration, accomplishes this duty, and at a cost no expensive.

SAUNDERS' HARNESS SHOP  
(Opposite White & May's)

Don't get us mixed up with the shoe maker, as the harness shop is a business in making and repairing harness.

Now is the time to get that HARNESS OILED AND FIXED for the Spring Week.

All kinds of repairs to SADDLES, TRUNKS, SUIT CASES, etc., and full line kept in stock.

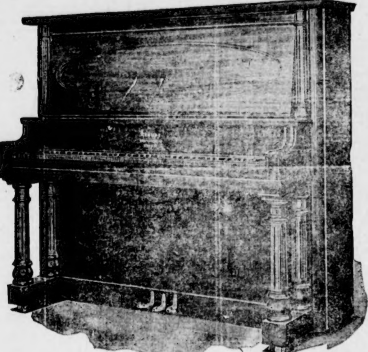

## What Do You Know

About the Great

\$1330.00 VOTING CONTEST

Now being conducted by the Strathmore  
Standard and Strathmore Trading Co.

Read this and get the A B C of it. Write  
the Contest Manager for any other  
information wanted

\$1330.00 Worth of Premiums

FIRST PRIZE—To the person receiving the highest number of Votes—A KRAUSE GRAND PIANO WORTH \$350

Second Prize—A Due bill for \$250 to apply as part payment on a Krause Grand Piano

Third Prize—A Due bill for \$250 to apply as above.

Fourth Prize—A Due bill for \$250 to apply as above.

Fifth Prize—A Due bill for \$250 to apply as above.

## What Will Win You These Prizes

Subscriptions obtained for the Strathmore Standard and goods purchased at the Strathmore Trading Company will obtain these prizes.

All you have to do is to collect the coupons. Every dollar's worth of goods purchased at the Strathmore Trading Company costs 200 votes.

Every year's renewal subscription to the Strathmore Standard costs 1,000 votes; new subscription 200 votes; 2 years' subscription 400 votes, 3 years' subscription 600; 4 years' subscription 800; 5 years' subscription 1,000; and 5 years' subscription 1,000.

## Rules of Piano Contest

1. The five prizes offered jointly by the Strathmore Trading Co. and the Strathmore Standard will be given to the five candidates who have received the greatest number of coupon votes by 6 p.m. March 20th, 1915, at which time the contest shall be declared officially closed and all votes polled thereafter void.

2. The ballot box will be opened every Thursday afternoon at 4 p.m., and the votes counted and the ballot box sealed by a committee of three selected for the purpose by the Contest Manager, his selection to be subject to public approval. The result of each week's count shall be published the following day in the Standard and the candidate's name and her standing in the contest shall be published in the Standard. The Contest Manager reserves the right to reject the name of any undesirable candidate and to limit the number of entries.

3. Any candidate living within a trading distance of Strathmore will be accepted providing she is nominated in regular form on one of the Coupon Ballots appearing in any of the issues of the Strathmore Standard. The Contest Manager reserves the right to reject the name of any undesirable candidate and to limit the number of entries.

4. Voting Coupons may be cast by anyone, providing that they are obtained from any of the following sources—Coupons appearing in regular issues of the Standard or in any hand bills, form letter, or card issued under the name of the Strathmore Standard or the Strathmore Trading Co., or coupons given out by the Standard or the Strathmore Trading Co. for trade at their store no matter what form. All others shall be declared void and thrown out.

5. No employee of either the Strathmore Standard or the Strathmore Trading Co. will be permitted to enter the contest.

6. All votes must be deposited in the ballot box located at the Strathmore Trading Co.'s store, and the presence of the Contest Manager or some one appointed by him, in casting a number of votes at the same time they must be neatly tied together or placed in a small envelope. Votes must be cast personally or by mail.

Contest Manager,

CHARLES A. BUTLER, Strathmore Trading Co.

who will answer all enquiries

## A QUEER COMBINATION

This Man a Cook by Inclination and a Sport by Profession

"My children would rather have 'Dad' make their favorite soup than bring them a box of candy," says Hugh Pullerton, who writes baseball's pituresque slang for a living and cooks food for the fun of it.

Pullerton's baseball stuff is known to every fan in the country, but his secret pride is in the delectable dishes he can prepare.

"Few women put brains enough in the food they cook," says Pullerton. And brains are more necessary in food than skill.

"Cooking is a great art. It requires the imagination of the poet, the careful analysis of the scientist, the palate of a gourmet and the patience of a job."

"There should be a real cook in every household, and it should be the brainiest person of the bunch."

"There is more nutrition in an ear of corn than in an artichoke, and a well cooked piece of round steak will beat lobster as a frizzle as a strength producer."

HUGH PULLERTON

## NO TRUANT SPOOLS

Keep Them Showered on a Brass Rod on the Sewing Chair

"That that spool!" is a common expression when the busy lady of the house spends what spare time she has from the kitchen doing her sewing.

When the spool of thread falls to the floor it is just as likely as not to bring up in an inaccessible spot. There is a way the spool can be kept within reach at all times and ready for use. Slender brass curtain rods that will pass through the hole in a spool of thread or will not be to be had everywhere. If the fastenings for these rods are attached to

opposite arms of the sewing chair—underneath the arms—and the rod is threaded through the holes in the spools and fixed in the sockets after the housewife has thrown her next, the spool cannot fall and are always at hand.

## THE YOUNGEST MAYOR

Cripple Bay Gains Proud Distinction—Drives a Pair of Goats

Imboden, Arkansas, has the youngest mayor in the world. Joe P. Sullivan, not yet twenty-one, and a hopeful cripple, won the executive office over two old political campaigners. A pair of goats and a white pretty girl contributed to his election.

Sullivan was elected with majority at the age of four, being the youngest

JOE P. SULLIVAN

of his left arm and both lower limbs. He has nevertheless succeeded in climbing several runs of the ladder of success.

Joe admits that the goats and the girl elected him. The goats gave him the education. They hauled him papers on the street for a livelihood, helped him to gather news for the local papers, and continued with him after he became an editor. The girls took hold of his campaign and tore the male portion of the population to lead him their support.

## WHERE FARMING IS PAYING WELL

Production in the New Glasgow Industrial District Cannot Keep Pace With the Demand

The town of New Glasgow, Nova Scotia, is selected by Mr. W. A. Craik in "The Canadian Countryman" as typical of many towns and cities in the Maritime Provinces where industries are bringing business and prosperity to both farmer and citizen.

He points out that the revival of progress in the provinces by the sea, where there was stagnation for thirty years or more, is directly attributable to a single cause, namely, the development of industry.

"Sydney, New Glasgow, Truro, Amherst, St. John, Halifax, Moncton and Miramichi," says Mr. Craik, "to name a few leading examples, are all on the up grade because of what is called the manufacturing and the industrial town."

What benefit does the community derive from this industrial development? New Glasgow is far removed from other towns to be self-contained. Therefore, its working classes spend their money at home. They are undoubtedly by good as compared with the cost of living. The average pay of machinists ranges from \$2.50 to \$2.75 per day, while in the structural shops workers earn from \$2 to \$2.50 per day, the latter prices being paid for good all-round men and riveters. Men who are capable of handling blue prints and acting as squad leaders in the structural shops get from \$2.50 to \$3 per day. In the N. B. Steel and Coal Co. all the men employed in the mill are paid by the tonnage; helpers earn from \$2.50 to \$3 per day and rollers from \$2 to \$3 per day. Wages of ordinary laborers in New Glasgow are 17½ cents per hour. Running over, it is estimated that between \$15,000 and \$100,000 cash is put into circulation every fortnight in New Glasgow. Realization and vitality of which a 1 per cent percentage is spent in New Glasgow stores.

The effect of the increasing industrial population on the agricultural situation is highly important. In Pictou County, which contains some of the best farming land in the Province, the number of abandoned farms is a depressing feature. Lack of markets was the direct cause of the agricultural slump, which led to the disappearance of a large section of the farming community. To-day young people do not leave the farm because there is no money in farming; in the New Glasgow district they leave because wages are so good in the factories and the life is attractive.

Meanwhile prices of farm products are soaring and production cannot keep pace with the demand. A strong movement has set in to settle the land. Already abandoned farms are being reoccupied and steps are being taken to encourage English settlers to come in and cultivate the soil.

The moral of New Glasgow's story is that commerce and agriculture will prosper in proportion to the industrial growth, and on the success of the industries will depend the welfare of the agricultural and commercial classes. Develop the industries and you have a stable foundation on which farmers and merchants can build. Hammer them and all classes will feel the effect.

## Special Inducements in the Piano Contest

In addition to the five pianos, the Manager of the big piano competition is offering special prizes from time to time, to encourage the candidates in their work of securing votes.

On December 26 a handsome cash bag and a gold bracelet were given away, the winners being Miss Marie Kelly and Miss Ruby Kelly.

The latest offer made by Mr. Butler is a gold bracelet to the young lady having the greatest increase of votes secured between Dec. 26 and Jan. 23. Candidates should pay special attention to the fact that this bracelet is offered for the greatest increase within the period from Dec. 26 and Jan. 23, and not for the person having the greatest number of votes at the end of the contest. This can start on even footing, and the candidate who has not so very many votes at the present time can, as good a chance as the ones whose votes run into big figures.

Votes have been coming out strongly within the past two weeks but they have not gone back to the ballot box and a number of the candidates seem to be holding on to their votes. None of the candidates seem to have taken our advice yet about getting after the votes in the villages adjacent, like Ligon, Chatham, Nankamas, etc. There is a fine chance here for the first candidate in getting many thousands of subscription votes. Along the route also, at Nightingale and other points there are fine opportunities for vote-getting, and the candidate who gets these has a great chance for the throne.

HOW THE CANDIDATES STAND

1 Miss Marie Kelly 75728  
2 Ruby Kelly 61428  
3 Thelma Seymour 52571  
4 Ida McRae 52571  
5 Hilda Knight 49471  
6 Geraldine Jago 46702  
7 Dorothy Crowley 42704  
8 Edna Linsky 37041  
9 Ella Anderson 37041  
10 Peggy Telford 37041  
11 Lillian Barry 37041  
12 Elizabeth Benz 28108  
13 Edna Bennett 27104  
14 Hazel Haynes 23807  
15 Edith Anderson 18919  
16 Anna Nelson 15505  
17 Ivy Lane 15505  
18 Betsy Jenkins 10405  
19 Stella Mangold 10405  
20 Huberta McIlhenny 14405  
21 Ella Kneese 4710

Town Council

Continued from Page 1

for the cement sidewalks, firewalls, and wood sidewalks built within the past three months, to the extent of \$20,000, are being sold to the Union Bank of Canada at a price of 50¢ for the ten year debentures, and 60¢ for the fifteen 3½¢ debentures.

There has been more work done than was contemplated in the original bylaws, and a sum of about \$3000 will require to be raised to meet the amount already taken from the current year's taxes for the carrying expenses of the town and school board during the year.

Personal Pars

Mr and Mrs A. S. Shaw and children left Friday for Oregon where they expect to locate.

Misses Ruth Linsky and Emma Lilly left the latter part of last week for Edmonton, after spending the holidays at their respective homes in Strathmore.

W. C. Brown returned several friends at a "Stag Party" Tuesday evening in honor of A. L. Clemens who is soon to leave for Hanna, Alta. having taken a position as road agent on the new C.N.R. line for the District Implement Co.

Mrs. R. M. Donaldson and baby boy, of Calgary, who were the guests of Mrs John Mackenzie during the Christmas and New Year holidays, left on Tuesday for Calgary, being accompanied by Mr. Donaldson, who spent the week-end here. During her stay Mrs Donaldson was the soloist at the Presbyterian Church on two occasions, and her singing was much appreciated. Before coming west she was choir leader at the Presbyterian

Horlicks on the banks of the Serpentine Creek to welcome the New Year in.

The chief feature of the evenings given for the benefit of the Strathmore Standard, rendered on the Graphophone by all the leading opera singers of the day.

A very nice supper ended the evening entertainment, partaken at midnight and merriment was kept up until that hour when everybody said goodbye by wishing all a happy and prosperous 1913.

To get them printed at the cost of the Strathmore Standard. We make a specialty of this work, and can give you the right article at a reasonable price.

To give the Standard an opportunity of estimating on all your job printing, including booklets, counter check books, etc.

To use the Standard as an advertising medium when you have anything to sell. Advertising in the Standard brings results.

To read the Standard carefully each week during the counting year. It will pay you.

**SCIENTIFIC CLOTHES-LINE**

One of the Presidents of Wash-day  
Solved by a Clever Woman

A bright woman who decided that  
much time was lost and much money  
wasted on wash-day in putting up and  
taking down the clothes line caused  
a box to be constructed at one end  
of her yard that was really a clothes  
box and was large enough to hold  
the entire week's wash. This box  
secured four double pulley blocks, a  
single pulley and a couple of saw  
weights.

She attached one end of the line to  
the washline which she fastened to  
gather. Two of the double blocks  
were also attached to the washline.  
The other two and the single pulley  
were fastened to the end of the line  
at the top of the box. Then the  
clothes line, Nightingale for the pulley,  
the blocks and lastly through the pulley.  
A very clever idea, and one that was  
used by the post and the rope brought  
through the hole.

Now on wash days in this woman's  
home the washerwoman simply takes  
the end of the clothes line that pro-  
trudes through the hole in the yard,  
throws it back and forth across the  
yard, weaving it through the hooks

or nails in the other posts and finally  
pulls the line and over the top post.  
When the clothes are dried the line  
is pulled up and the clothes are  
self up by means of the weights. It  
is kept straight and without a twist  
will collect the ordinary clothes  
line.

**A SNORE-STOPPER**

English Parson's Device a Boon for  
Light Sleepers

This is Rev. Alfred Barrett of King's  
College, London, who has invented a  
device for the purpose of snoring or breathe  
freely. It is worn on the nose  
while sleeping.

**A WATER TELESCOPE**

Wonders of the Deep Visible by This  
Simple Device

Everybody knows that many strange  
things can be seen by means of a tele-  
scope. It is now possible to see the  
bottom of the sea or the bottom of  
the lake. The device is simple and  
easy to use. It is made of glass and  
water. The device is simple and  
easy to use. It is made of glass and  
water. The device is simple and  
easy to use. It is made of glass and  
water.

**Open-air Cocker**

Stoves are expensive things in this  
country.

At least the kind of cooking  
stove which the Canadian house-  
wife is accustomed, are very expen-  
sive, and as a result many house-  
wives do their cooking in the open  
air.

**Dressing Table Hint**

Gold and silver necklaces or brace-  
lets, left on the dressing table, are  
not safe. They are liable to be  
stolen. It is better to keep them  
in a safe or a locked drawer.

**Gold and Silver Necklaces**

Gold and silver necklaces or brace-  
lets, left on the dressing table, are  
not safe. They are liable to be  
stolen. It is better to keep them  
in a safe or a locked drawer.

lets, left on the dressing table, are  
not safe. They are liable to be  
stolen. It is better to keep them  
in a safe or a locked drawer.

**Nightingale Notes**

The Entertainment Committee of  
Nightingale regret that in last  
week's issue they omitted to thank  
Mrs. Mercer and Mrs. Macleod for  
refreshments sent to the children's  
tea.

A Social Evening has been  
arranged for January 23rd, which  
will hold out attractions for every-  
one, and to which all are invited.  
Admission for everyone is 25c, re-  
freshments being free. There will  
be dancing, a whist drive, and two  
rooms for general games. Each  
lady coming is requested to bring  
a cake or a box of confectionery.  
The proceeds will go towards the building  
of a new hall for the children's  
purposes upwards of \$500 is already  
saved.

Mr. Ravey and family are taking  
up their residence in Nightingale  
on Friday having rented Mr. Geo.  
Poe's house.

Mr. Waide left on Tuesday for  
his farm in California having spent  
three weeks at Nightingale.

**The Barley Market**

A short time ago the Agricultural  
Branch, Department of Natural Re-  
sources, Canadian Pacific Railway,  
Calgary, Alberta, has been in-  
vested in the barley market. The  
branch will be glad to see seed grain or  
barley samples of good quality as  
they were positive to receive sam-  
ples in touch with big purchasers.  
As a result of this announcement, a  
great many samples have been re-  
ceived all of very good quality.  
Some samples of barley have been  
graded No. 3 by the Government  
Inspector, and a price of 4 1/2c F.O.B.  
quoted. This quotation, if not ad-  
ded to, is from 10 to 12 cents above  
prices ruling in Winnipeg. Samples  
have also been submitted to a large  
firm of maltsters at Glasgow, Scot-  
land, and a very high report on it  
obtained. This is a very gratifying  
result for Canadian grain. The  
P.R.M. will welcome further sam-  
ples. To make its position clear, it  
would like farmers to understand  
that it is not buying itself, only  
acting as intermediary between the  
farmer and the wholesale purchaser,  
but for all samples it will endeavor  
to secure the best possible price.  
Therefore, farmers having good  
grain, will do well to submit them.  
They should be addressed to the  
Agricultural branch as above.

They need not contain a high quan-  
tity, eight ounces will be ample for  
analysis. It is important that they should be  
representative, and in the case of  
wheat, they should be clean and free  
from chaff. The decision is made by the Dominion  
Seed Testing Laboratory, Calgary,  
and a statement attached to it as to  
the germination of the grain.

**Premier Sifton May  
Run For This  
Riding**

The Edmonton "Journal" interestingly  
discusses the probability of a  
Provincial election shortly in a re-  
cent issue. It states that Pre-  
mier Sifton intends to resign if the  
Privy Council sustains the A. & G.  
W. Railway case against him. If this  
decision is favorable to the Govern-  
ment, the Journal states, a short  
time after the election of the House  
which a redistribution bill will be  
passed through and supplies voted.  
It is a general election declared  
the Journal continues.

"The Premier is finding difficulty  
ascertaining where he can find  
riding in which he might find some  
possible hope of being returned.  
He has not the heart to return to  
Vermilion. His eyes and agents  
have been roaming far and near,  
trying to find a constituency of  
which the administration has  
given up all hope, and by taking  
advantage of telephone poles which  
have been strong in the riding with  
greater liberality than in any other  
portion of the province. Premier  
Sifton might look with favor on  
Grainland, if he gets the length of  
standing for reelection."

Anti-flea New Year present to  
some friend of better worth than  
a year's subscription to the Strath-  
more Standard. It will keep the  
flies at home in a comfortable  
of you and your locality as noth-  
ing else but a personal weekly  
letter would. Try it.
